Mouse anti- human beta amyloid peptide N-terminal antibody [NT 4A2] Datasheet

Catalogue No	MO-M40094E
Product name	Mouse anti-human beta amyloid peptide N-terminal antibody[NT 4A2]
Clone No	NT 4A2
Product type	Primary antibody, capture antibody of matched pair for beta amyloid peptide 40 and 42 ELISA.
Description	Mouse monoclonal antibody (MAb) against the N-terminal sequence of human beta amyloid peptides, Protein G affinity purified
Target protein	Human beta amyloid peptides
Immunogen	Full length human beta amyloid peptide 43.
Specificity	This antibody recognizes the N-terminal sequence (DAEFRHDS) of human beta amyloid peptides, and full length beta amyloid peptide 40, 42 and 43.
Reactivity	Human
Clonality	Monoclonal
Source	Mouse
Isotype	IgG1, k
Formulation	Lyophilized from a solution in 0.01M PBS pH7.2
Reconstitution	Double distilled water is recommended to adjust the final concentration to 1.00 mg/ml. Avoid repeated freeze and thaw cycle.
Applications	ELISA
Research	Aging and neurodegenerative diseases.
Storage	Store at -20° C
References	If research is published using this product, please inform Anogen in order to cite the reference on this datasheet. Anogen will provide any product of choice as gratitude.

This product is for LABORATORY RESEARCH USE and further manufacture only, and can not be administrated to human and animals for use in diagnostic and therapeutic procedures.
