

Mouse anti-Myc Tag Monoclonal Antibody [Myc.A7] Datasheet

Catalogue No	MO-H40006A
Product name	Mouse anti-Myc Tag Monoclonal Antibody [Myc.A7]
Clone No	Myc.A7
Product type	Purified primary antibodies
Description	Mouse monoclonal antibody against Myc tag.
Target protein	Myc tagged recombinant protein
Immunogen	A synthetic peptide (EQKLISEEDL) corresponds to amino acids 410-419 of transcription factor c-Myc. Coupled to KLH for immunization.
Specificity	This monoclonal antibody binds to Myc-tagged recombinant protein.
Cross-reactivity	Not identified
Clonality	Monoclonal
Source	Mouse
Subclass	IgG1
Light Chain	Kappa
Formulation	Liquid, in pH7.4 PBS with 0.05% sodium azide.
Storage	Aliquot and store at -20°C for long term storage. Avoid repeated freeze and thaw cycles.
Applications	Western blotting (1:1,000). Immunoprecipitation and Immunostaining (1:200)
Research	Life science
Storage	Store at -20° C
References	If research is published using this product, please inform Anogen in order to cite the reference on this datasheet. Anogen will provide any product of choice as gratitude.

Experimental data

Fig. Western Blot analysis of Myc-tagged fusion construct under different conditions of transfection reagents and amount of fusion DNA construct.

This product is for LABORATORY RESEARCH USE and further manufacture only, and can not be administrated to human and animals for use in diagnostic and therapeutic procedures.
