Goat anti-human IgG (Fc) Polyclonal Antibody Datasheet

Catalogue No	AI20001Fc
Product name	Purified goat anti-human IgG (Fc) polyclonal antibody
Product type	Primary antibodies
Description	Produced by hyperimmunizing the host animal with highly purified human IgG (Fc) fraction. The goat IgG fraction is prepared from antisera with a Protein G affinity column
Target protein	Human IgG (Fc)
Immunogen	Highly purified human IgG (Fc) fraction
Specificity	This antibody recognizes human IgG (Fc) fraction
Reactivity	Human, others not tested
Clonality	Polyclonal
Source	Goat
Formulation	Lyophilized from a solution of 0.02M PBS, pH7.4
Reconstitution	Use distilled water to reconstitute to desired concentration
Applications	ELISA
Storage	Store at -20° C
Research	Immunology
References	If research is published using this product, please inform Anogen in order to cite the reference on this datasheet. Anogen will provide any product of choice as gratitude.

This product is for LABORATORY RESEARCH USE and further manufacture only, and can not be administration to humans and animals for use in diagnostic and therapeutic procedures.
